SIMMENTALS BULL & FEMALE SALE

**MONDAY
MARCH 1, 2021
1:00 P.M.**

LOCATION: at the farm Clavet, SK

From Saskatoon: 8 miles south
on Hwy 11; turn at Coop Cardlock
(Tamke Road); 7 miles east

From the south on Hwy 11: 11 miles north of
Dundurn on Hwy 11, turn at Coop Cardlock
(Tamke Road); 7 miles east

From Hwy 16: Take the Clavet west access
road, go 1 mile south to the "T"
intersection, turn east, go 1/4 mile, then
follow the speed curve south for 2 miles

Erixon Simmentals
can be found on Google Maps
under **Erixon Simmentals Inc.**

PLEASE JOIN US FOR LUNCH ON SALE DAY

Welcome
On behalf of Dave, myself, Griffin and Holden, I would like to welcome you, our fellow seed stock producers and commercial cattlemen to the 2021 edition of the Erixon Simmentals Bull & Female Sale. 2020 provided us all with some major challenges to overcome, but we are resilient people. 2021 brings us new goals, hope and a new perspective on life.

The herd is built around strong cow families that have been consistent over the years. We believe in the power of the momma cow, and her ability to produce by utilizing forages. Cattle are our sole income and each and every cow on the farm must pull her own weight. Our bulls and heifers come to you out of the industry's leading A.I sires and two of our own walking bulls. We take great pride in striving to find exciting new and upcoming sires. We have invested heavily in semen packages over the years and are very happy with the results. Some of the proven herdsires that are represented again this year are; State of War, Liberator, Kill Switch, Capacity, Affiliate & Alliance. We are very pleased with the job that our newest A.I sires are doing; Betts, Tycoon and Epic. You will see a large group of bulls again in our 2022 sale off these sires. We are excited to get the bulls out and working for our customers. We have something for everyone. Reds, blacks, white faced, heifer bulls, calving easy cow bulls, performance bulls and the list goes on. Please call us and we can discuss the bulls in detail with you. The group of 5 heifers are out of our replacement pen. They are good honest heifers. All the pictures were taken in December. We made sure to get a picture of each and every animal for your appraisal. We are committed to the industry and are always striving to raise the best stock possible.

All the bulls and heifers are on a full herd health program and have been poured with Ivomec. The calves are developed on a high roughage TMR ration that promotes growth and longevity. The bulls see no creep on grass or at weaning. We believe our bulls are muscled up and are in optimal condition to go out and breed. They're weaned and put back out on a grass field until mid November when they're put into their winter pens.

If you can't make it to the sale we are more than happy to assist you in your purchase. Feel free to call Dave or I or any of the phone numbers listed for our sales staff. We have the full confidence in our sales staff and this is a free service to you. Not only are they here at sale time to analyze the bulls, they've seen them while they were sucking their dams. Your bids will be handled professionally and confidentially. NEWTHISYEAR. . . . the live sale will be on dlms. We still highly encourage you to come see the bulls and use the services provided by our trusted sales management.

We look forward to hosting all our past, present and future customers at our sale facility on the farm. The bulls will continue to sell by live auction and ran through the sale ring for your appraisal. Join us for lunch prior to the sale and after for socializing, refreshments and snacks. If you have any questions feel free to give us a call or stop by the farm anytime prior to the sale.

Cheers folks!
Krista

Sale Day Information

Sale Day Phones:

Ringmen:

Rod McLeod 403.540.7986

Taylor Richards 306.821.4169

Delivery Options

Option A: \$50 off per lot if picked up sale day.

Option B: Free on bulls to central points in Saskatchewan, Alberta and Manitoba. In most cases we will deliver the bull to your yard. Trucking will start immediately after the sale at seller's convenience.

Option C: Bulls may be left at the farm free of charge until April 15. A \$3.00/day fee will apply after that and bulls will then need to be picked up or delivery arrangements made with the seller.

We insist all purchases be insured while at Erixon Simmentals. All bulls and females become the risk of the buyer once sold. Erixon Simmentals will provide the utmost care of the animals that return to the farm.

Semen Collection

Erixon Simmentals reserves the right to collect semen on any bull sold through this sale. The semen collection will be at Erixon Simmentals expense and the buyers convenience. Any semen collected will be for Erixon Simmentals in herd use only.

Win a \$2000 Sale Credit

Purchase a bull from any current Saskatchewan member, and when the registration papers are transferred, your name is entered to win a \$2000 sale credit! The draw will be made at the SSA's annual general meeting in July and the lucky winner will have one year to use the credit at any public auction or private sale on bulls or females purchased from any current SSA member.

Guarantee:

All animals will carry the standard breeding guarantee as specified by the Canadian Simmental Association. If a problem occurs with your purchase, please notify us as soon as possible. A bull of equal value and quality will be supplied or a credit given towards the purchase of another Erixon bull.

Sight Unseen Program:

Every year more bulls are purchased sight unseen because of the increasing number of repeat customers and the fact that people are busy. Please call us or our knowledgeable sales staff and we would be happy to discuss the cattle in detail with you.

U.S. Buyers

Erixon Simmentals will do necessary testing at cost for export on bulls and females.

Offering

40 Red Yearling Bulls
12 Black Yearling Bulls
4 Extra Age Bulls
5 Replacement Heifers

Dave & Krista along with the boys are home to one of the top bull sales in the land as the consistency and quality of their program is to be commended. Attention to detail is one of the strongest assets that the Erixons possess and it has elevated their program to an extreme high level. The sires they utilize are carefully selected to improve their cowherd and most importantly, offer as high of quality product as possible through this specific event to you, their valued customer.

As you drive into the beautiful Erixon yard and head back past their impressive shop/sale barn you will find a set of bulls behind that are consistent and high quality each and every year. The progression and strength of this program has annually been noticed as you can roll in here with the utmost confidence that there are multiple options of strong herd sire candidates for the most astute cattleman to source. Hairy, stout, well-muscle, power bulls are represented in this program and don't forget about the strong group of replacement females that are out of exciting pedigrees and represent the strength of their cowherd.

We welcome you to join us at the Erixon's on sale day but if you can't attend sale day, we also want to encourage you to stop by prior to see the offering and their mothers. Our team is very familiar with the program and would be honoured to represent your buying needs if you unfortunately can't join us on sale day. Safety protocols will be in place and the hospitality is always the very best as we look forward to visiting with you at the 2021 Erixon Bull & Female Sale.

These four maternal brothers are transplant bulls that come to you with some extra age. Erixon Lady 126Y was the anchor of our 2013 show string. She had many accomplishments throughout the year, with the grandest being named top 10 in the Royal Bank Cup Supreme at Agribition. 126Y was one of the most consistent, highest valued cows on the farm raising some top end progeny. 126Y has 38 registered progeny. It would be pretty neat to see these brothers out walking with a large group of cows. Take note that 199G did lose his dam at 4 months of age and was on his own. The group of extra age bulls along with our other bulls see no creep.

Heifer Bull! Lets start off with talking about the granddam of 5H. We thought very highly of this Horizon daughter the day we purchased her from Labatte Simmentals. So broody yet so much class and eye appeal would best describe this leading female. She comes out of an outstanding cow family, the Pocahontas 68M family. Boy, she did not disappointed us the first time around, raising Erixon Magnum 69D! He was a \$32,000 high seller that we A.I'ed numerous heifers to. The dam of 5H is a gorgeous Erixon War Paint daughter. She has a stellar udder and has done a fantastic job raising 5H. Check out the number profile on 5H, he has great calving ease numbers with top end weaning and yearling EPD's.

46C is a dark red, extremely hairy Wallbanger daughter with a nice udder. She has done a top end job on this Betts bull. We will have a large selection of Betts calves for 2022. We thought very highly of this sire group already at a very young that we bred a ton of cows back to him. He had a short gestation and calved excellent for us.

A great bull needs a great cow family backing him. The Scream cow family is widely known in the Simmental industry and you will hear alot more about how they are working in our herd in the next few years. We have been flushing the granddam of 10H and are starting to get some daughters off her in production. 10H has an excellent EPD profile. Its hard to produce the cattle that have stellar CE and be top of the breed for weaning and yearling weights. He will work wonders if you are looking for a bull with some punch that will calve easy.

Heifer bull! We think 25H is a great candidate for your heifer pen or younger cows. He is out of a gorgeous, easy keeping Relentless daughter. The Sate of War calves have been born with no worries here for multiple years. 25H has a small skull, smooth shoulder but still carries a herd bull look and doesn't lack in length or frame.

304Y Great Grandam

613D or better known as Darlin' is a true beauty! IRCC Darlin' 613D made quite the flash in 2018 as she dominated the show ring out in Ontario and was named Grand Champion Female at the Royal. She then went on to be the Reserve Champion Female at Agribition and topped off her show career with being named top 10 in the Royal Bank Supreme. She is nearly flawless in her design and was admired by many. We feel this is one heck of an opportunity to buy into two of the great up and comers. 2 of the most prolific red cows in the industry back these bulls.....Darlin' and Sage! 2 full sib were the lead off heifer calves at Friday Night Lights for \$45,000 and \$35,000. These two bulls have the look and a beautiful set of EPD's to back them. Their gestation was 276 & 277 days.

39H has been one of the fastest growing bulls since last spring. We are real high on these extended bulls that carry some extra frame. If you're looking for pay weight calves to market this is the type of bull to fit that bill. He is easy on the eyes, and is backed by a consistent pedigree. His dam would be described as a very solid producer who weans off an above average calf every year. She has never missed having a calf and her 2 most recent bulls have gone into two very progressive operations; Raymond Land & Cattle and to Trevor & Pauline Jones.

In the fall of 2019 we sold a daughter of 52D in the Border City sale to the Eaton family of Lloydminster. My footnotes on her read.....206E is no slouch of a heifer and will raise calves that push the scale down come weaning. Well, last spring I received a message from the Eatons saying just how good and happy they were with her bull calf. He weaned off that first calf heifer at 900 lbs. That is only one story about this cow family, there are more. Buy with confidence!

Unfortunately we lost 118Z when 56H was just a calf. She was one of the best daughters we had off of our old flush cow 2P. Her udder was perfectly structured with a great attachment. We wish 56H would have been a heifer as we would have loved to put another daughter of 118Z back into the herd. I don't think we could write a better pedigree on this bull. He's a good one, that we would keep every female off of.

BOBE 107H
22 Jan 2020

75B has been really good to us. We sold a daughter in Friday Night Lights to Bata Brothers in North Dakota. They are currently flushing her. We just sold another daughter at the 2020 Edition of Border City. Selling 2 daughters in 2 of the most elite sales in the country is no small task. 107H himself stands with the best bulls that we have ever produced. Things are right here folks.....great pedigree, a dam that has raised some top end stock, dark red, length of body, muscle pattern, and he has looked stellar since the beginning.

Sometimes we question whether or not we should catalogue the bulls by cow families. We strongly believe that a great cow family needs to stand behind any cattle purchase. 65Z is part of a great cow family! Buy yourself a Betts sired bull, the daughters were in very high demand during the fall female sale run.

125H has fleshing ability, comes to you in a moderate frame with lots of muscle expression. His dam is dark red, big bellied and real nice to look at. He is a 3/4 blood.

Lady 24D was crowned the 2016 Little Lady Classic Jackpot Champion, and Heifer Calf Champion at Brandon Ag Ex., along with Reserve Senior Heifer Calf Champion at Agribition. She was the most talked about heifer calf that we have ever had the privilege of showing. These 2 maternal sibs have style and a presence to them. When you analyze them from the rear, you really have to appreciate the width and hip shape they carry.

If you want to talk cow families, 147H is a great grandson out of the widely known HPF MS Honey. We were lucky to purchase 46X out of the Remington dispersal quite a few years back. A maternal sister to 147H was a leadoff bred in Simmsational selling for \$21,000 to Crossroad farms. 2 other maternal sibs have sold at Simmsational to Oberles and CS Livestock. The udder structure on this cow family has been phenomenal. Take a look at the pictures of the maternal sisters. We couldn't write a better history on 94Z if we tried. For a cow that has never been flushed, she has produced some dollar value in progeny and has more than exceeded our expectations. This bull comes to you with a great look, a stellar cow to back him and a pedigree that takes generations to build!

183H might not be the biggest framed bull in the pen, but he is a neat made individual. Keep in mind that he does have a March 14th birth date and will not yet be a year of age on sale day. His maternal brother topped our 2020 sale and reports are that he looks extremely impressive.

Buy yourself a SVS Betts daughter! The Betts heifer calves were in very high demand during the fall sale run. There isn't a large group of breeders who were able to acquire semen packages on him the first year. We have an amazing group of Betts heifer calves and have selected 1 for your appraisal. 97A has a nice blaze face and an exceptional udder.

BW	WW	YW	MCE	MWW	
87	727	1138	11.7	2.3 87.2 126.2 6.6 66.3	22.7

What do the numbers mean?

CSA 2020 Fall Breed Average EPD's

CE	BW	WW	YW	MCE	MWW	Milk
6.7	3.4	69.5	102.4	3.9	59.9	25.2

Calving Ease - The ease with which a bull's calves are born. EPDs are reported as deviations in the percent unassisted births. When comparing calving ease EPDs of two sires, the larger EPD indicates a higher percent of unassisted births for calves sired by that bull.

Birth Weight - Calf weight at birth adjusted to a mature dam equivalent. Expected progeny difference is reported in pounds. The larger EPD indicates a heavier average birth weight.

Weaning Weight - Calf weight taken between 160 and 250 days of age and adjusted to 205 days of age and a mature dam equivalent. Expected progeny difference is reported in pounds. The larger EPD indicates a heavier average weaning weight for calves sired by that bull.

Yearling Weight - Weight taken between 330 and 440 days of age and adjusted to 365 days of age and a mature dam equivalent. Expected progeny difference is reported in pounds. The larger EPD indicates a heavier average yearling weight for calves sired by that bull.

Maternal Calving Ease - The ease at which a sire's daughter calve as first calf heifers. The larger EPD indicates a higher percentage of unassisted births for calves born to the sire's daughters.

Maternal Weaning Weight - The weaning weight of animal's daughters calves. Expected progeny difference is reported in pounds. The EPD value predicts the difference in average 205 day weight of an animal's daughters calves compared to calves from daughters of all other animals evaluated. The evaluation reflects both the maternal ability of an animals daughters and the growth potential of their calves. The larger EPD indicates heavier weights due to daughters ability to produce heavier calves.

Milk - Expected progeny difference is reported in pounds of calf weaning weight. The milk EPD is a predictor of a sires genetic merit for milk as expressed in his daughters, or in other words the part of weaning weight attributed to milk genes. The larger EPD indicates heavier average weaning weights due to daughters greater maternal ability.
